

DERMODALITY INSTITUTE OF MODERN ESTHETICS (DIME)

900-Hour Advanced Esthetics Program

Las Vegas, Nevada

Welcome to DIME

Thank you for your interest in the **Dermodality Institute of Modern Esthetics (DIME)**.

DIME was founded by industry professionals who saw a gap between basic esthetics education and real-world advanced practice. Built in conjunction with **Dermodality Skin Solutions**, our professional-grade skincare line, the school was created to bridge science, devices, corrective skincare, and profitability into one cohesive training experience.

We are not a high-volume school.

We are a boutique, advanced-focused institution committed to producing confident, competent professionals.

Our Philosophy

At DIME, we don't just educate — we inspire, prepare, and launch careers.

Our curriculum blends:

- Custom advanced coursework
- Milady textbook foundations
- Clinical device training
- Real-world protocol development
- Business and consultation mastery

Education at DIME is structured, intentional, and hands-on.

Program Overview

Program: 900-Hour Advanced Esthetics

Schedule: Monday – Friday

Hours: 8:00 AM – 4:00 PM

Location:

4045 Spencer St, STE B38

Las Vegas, NV 89119

This program prepares students for:

- Nevada State Board Licensure
- Advanced esthetics practice
- Medical spa employment
- Entrepreneurial pathways

Boutique Class Size & Hands-On Training

Unlike many traditional schools, DIME intentionally limits class size to maintain:

- Individual instructor attention
- Extensive hands-on repetition
- Direct access to devices
- Real clinical correction and feedback

You will not simply observe — you will perform.

Hands-on training is the core of this program.

Curriculum & Modalities

Our 900-hour program includes foundational esthetics plus advanced device-based education.

Foundational Training

- Infection Control
- Skin Science & Anatomy
- Ingredient & Product Education
- Nevada State Law
- Consultation & Treatment Planning
- Facial Scanner Training & Skin Analysis
- Makeup Application
- Lash & Brow Services
- Eyelash Extensions
- Brow Lamination
- Lash Lift & Tint
- Waxing (Face & Body)

Advanced Modalities & Devices

- Hydrofacial
- Chemical Peels
- Dermaplaning
- Microneedling
- RF Microneedling
- Exosome Integration
- Laser Hair Removal
- IPL (Photofacial)
- Tattoo Removal
- Body Contouring
- Skin Tightening
- HIFU
- Advanced Acne Protocols

Students are trained to understand not only how to perform treatments — but how to structure protocols safely and profitably.

The Dermodality Advantage

DIME is built alongside **Dermodality Skin Solutions**, a professional-grade skincare line rooted in intelligent formulation and high-performance actives.

Students receive:

- In-depth product education
- Exposure to professional formulations
- Protocol-based training
- Real retail & back-bar understanding

This ecosystem prepares graduates to enter the workforce confidently.

Post-Graduation Benefits

Lifetime Continuing Education

All Dermodality professional classes are **free of charge for DIME graduates — for life.**

As we introduce:

- New modalities
- Updated protocols
- Advanced ingredient education
- New device integrations

You are always welcome back.

Education does not stop at graduation.

The DIME Post-Graduate Kit

Built for Income, Not Just Graduation

Most esthetics schools graduate students with a certificate.

DIME graduates leave with tools.

Our post-graduate kit is designed to help you step into the workforce — or independent practice — immediately.

As far as we know, it is one of the most comprehensive post-grad kits in the industry.

The Kit Includes:

- Professional **Dr. Pen Microneedling Device**
- Replacement microneedling tips
- Professional dermaplaning device
- Blades & essentials
- Dermodality back-bar products
- Retail-ready product options
- Treatment protocol guides

This is not starter equipment — this is professional equipment.

What This Means for You

With this kit alone, a graduate can begin offering:

- Microneedling
- Dermaplaning
- Advanced facials
- Corrective protocols
- Product retail

Even performing just 4–6 microneedling treatments per month can generate substantial income. When properly priced and packaged, graduates can realistically generate thousands in revenue within their first months post-licensure.

We don't just prepare you to pass the state board.
We prepare you to produce income.

Continued Support Through DALA

DIME is directly connected to **DALA — our medical spa and advanced clinical training facility built to support our graduates beyond the classroom.**

We created DALA with one goal in mind:
To give our students a real-world bridge between school and independence.

As a DIME graduate, you have access to:

- A fully equipped medical spa environment
- Advanced device exposure
- Continued clinical mentorship
- Post-graduate skill refinement

Most importantly —

DALA offers treatment rooms available for rent by the hour, day, week, or month.

This allows new graduates to:

- Begin seeing clients immediately
- Generate income without large overhead
- Build a clientele safely
- Grow at their own pace
- Transition into independent practice strategically

You are not expected to graduate and “figure it out.”

You graduate into an ecosystem designed to support your growth.

Professional Standards

DIME operates as a structured, professional institution.

All students are expected to:

- Follow dress code
- Maintain professionalism
- Adhere to attendance policies
- Respect clinic standards

We encourage all prospective students to carefully review our full catalog and student handbook to understand expectations, policies, and regulations.

We take education seriously — and we expect our students to do the same.

Tuition & Payment Options

900-Hour Program Tuition: \$17,500

(Current promotional pricing may apply. Currently \$9,000.00)

We offer:

- Interest-free in-house payment plans during the program
- Flexible down payment options
- Structured monthly payments
- Case-by-case financial discussions

Hours are submitted to the Nevada State Board once tuition is paid in full.

Our goal is to make education achievable without compromising standards.

Why Choose DIME?

- Boutique learning environment
- Extensive hands-on device exposure
- Custom curriculum integrated with Milady

- Advanced laser & body modalities
- Real-world protocol training
- Professional-grade product education
- Lifetime continuing education access
- Career-focused preparation

DIME is designed for students who want more than a license — they want preparation.
